

3 DICE BACCARAT

3 Dice Baccarat is a commission-free, house-banked dice game played with two dice shakers/cups (representing the Player hand and the Banker hand), with each shaker/cup containing three 6-sided dice. The game is scored like Baccarat, where the hand's final value is the last digit of the sum of its 3 dice (e.g., 10 = 0, 11 = 1, 12 = 2, 13 = 3, etc.). The hand with the higher value wins. 3 Dice Baccarat also contains optional bonus wagers that are not dependent on the base game's outcome.

GETTING STARTED

1. To begin each round, players must place a main game wager (Player, Banker, Tie) or any combination of the three, and may also place any optional bonus and/or progressive wagers.
2. Once all wagers are placed, the dealer will shake each dice cup. **Note** that at the operator's discretion, the dealer may allow players to shake the dice cup(s) based on wager amounts, number of players, or other criteria. In such cases, the dealer must shake the dice cup(s) before handing them over to player(s), and neither the player nor the dealer can expose the dice prior to the player shaking the cups.

WINNING AND LOSING

After the dealer reveals the dice, the values of each hand are computed by adding the 3 dice together and dropping the first digit if the total is 10 or higher. Then a comparison and evaluation follow to determine if the Banker or Player wins based on the higher single digit number and how the wagers are settled. If Banker and Player tie, then a push will occur.

- a. If the Player hand wins,
 - i. The Player wager wins and pays 1 to 1.
 1. If the winning outcome was 3 over 0, the Player wager pushes.
 - ii. The Banker and Tie wagers lose.
- b. If the Banker hand wins,
 - i. The Banker wager wins and pays 1 to 1.
 1. If the winning outcome was 3 over 0, the Banker wager pushes.
 - ii. The Player and Tie wagers lose.
- c. If the hands are tied,
 - i. The Tie wager wins and pays 8 to 1.
 - ii. The Player and Banker wagers push.

All optional bonus wagers are reconciled based on their evaluation criteria.
