IYASHI DOME INFRARED THERAPY

Allow yourself to be luxuriously immersed in total relaxation in the original Japanese Sauna. Rooted in over 300 years of Japanese wellness tradition, Suna Ryoho is a revered detox ritual originating in the coastal region of Ibusuki. Inspired by this time-honored ritual, the Iyashi Dome offers a modern interpretation of Suna Ryoho using advanced far infrared technology. This innovative treatment delivers the same soothing, deep detoxifying benefits in a comfortable and accessible way, promoting muscle recovery, deep sleep, and overall well-being, while restoring balance to both body and mind.

IYASHI DETOX

The Iyashi Dome's far infrared technology promotes deep, invigorating perspiration to support the body's natural detoxification process, helping eliminate impurities and restore balance. During the Infrared Dome session, intense sweating—equivalent to a 10-mile run—helps eliminate an average of 600 kilocalories and up to 1200 ml of sweat per session.

The result is a smoother, firmer, and more radiant complexion, visibly luminous and beautifully revitalized.
