# PLAYING THE GAME

## HOW IT WORKS

2-3-5 Stud Poker is a five-card poker game played with one 52 card deck against a pay table and not against the dealer or other players. Each player will receive three cards and use the two community cards to make their best five-card poker hand. 2-3-5 Stud Poker also offers the optional Hat Trick bonus wager.

## GETTING STARTED

Make equal wagers on the bet spots marked 2 Card Poker, 3 Card Poker, and 5 Card Poker. You may also make the Hat Trick bonus wager. Once all wagers have been made, the dealer will give each participating player their two-card starting hand to review.

You now have a choice:

1. Make an equal wager on the Raise bet spot under your 3 Card Poker bet.
2. Or check.

Once you have made your Raise wager or decided to check, the dealer will give players their 3rd card to review.

You now have a choice:

1. Make an equal wager on the Raise bet spot under your 5 Card Poker bet.
2. Or check.

The dealer will now turn the two community card face up.

## WINNING AND LOSING

Starting from their right and working counter-clockwise, the dealer will reveal each player's three card poker hand and combine them with the two community cards to make the best five-card poker hand.

Payouts are based on rank of your 2-card poker hand, 3-card poker hand and 5-card poker hand. See layout for odds.

Note: All winning wagers pay odds.

## HAT TRICK

Your Hat Trick wager wins if you win all three wagers. See layout for odds.

2-3-5 Stud Poker also offers a progressive bonus bet that is described in the progressive jackpot rules of the game.
