PLAYING THE GAME

HOW IT WORKS

Six - 52 card decks will be used for Blackjack games. All Blackjacks pay 6 to 5 and dealer stands on all Hard 17s and may hit Soft 17. The objective of this game is for the player to beat the dealer's hand without going over 21. Card values are as followed: Aces are worth 1 or 11, face cards (Jack, Queen, or King) are worth 10, and all other cards are worth their face value. The game starts by making a bet on the blackjack hand, then the player and the dealer receives two cards. The player may draw additional cards while the dealer must draw until they have at least 17. The Player's intention must be indicated by a hand signal.

Insurance Bet

Only if Dealer shows a up card of an Ace

- Option to bet up to half the original wager. Winning insurance wager pays 2:1

Double Down Bet

- Option to bet up to 100% of the original wager and then the player will only receive one (1) addition card.

Splitting

- Pairs may be split, making two hands, up to three (3) times; Aces may only be split once.

TriLux and TriLux Super 3 are both optional bonus bets for Blackjack. TriLux Super 3 bonus bet CANNOT be wagered unless a TriLux bet had been placed.

PAY TABLES*

Hand	TriLux Super 3
